

Joystick Keyboard

The Joystick keyboard is specially developed by NetVu for use with its Digital Video Recorders (DVRs). Consequently, it offers optimal ergonomic performance as part of a NetVu Closed IPTV® system.

The KBC/U uses a USB connection and is supplied with a separate dedicated power supply.

Features & Benefits

- Ergonomically designed joystick for effortless precise control of the selected camera.
- Includes all the necessary control functions for monitoring a video surveillance system and controlling Pan-Tilt-Zoom (PTZ) cameras, establishing audio connections, camera switching etc.
- Supports 360° cameras, with dedicated keys for auto-pan and Patrol functions.
- Dedicated shortcut keys to summon all the most commonly used functions.
- Dedicated colour-coded keys that correspond with the colour-coded soft keys shown on screen by the NetVu DVR.
- Status indicating LED adjacent to each key for visual conformation, in addition to the excellent tactile response.
- “Panic” button for Operator safety.

Ordering Information

Part Number	Description
KBC2/U	Joystick keyboard for SD-Advanced DVR and other Gen3 Products.

Technical Specification

Power Requirements	KBC2/U: 12V. 15W Max.
Weight	1.85kg.
Dimensions	395mm (W) x 180mm (D) x 60mm (H) (115mm high including joystick).
Temperature Range	5C to 40C (41°F to 104°F).
Relative Humidity	10% to 85% (Non-condensing).
Compliance	Complies with part 15B of FCC CFR47.
	CE Marked.
Warranty	
	1 year.
